SUMMARY

Senior Web Engineer with over 9 years of international experience architecting high-scale frontend solutions, specialising in the Angular ecosystem (v20) and Nx monorepos. Works at the front of AI-augmented development, using Model Context Protocol (MCP) servers and Figma Code Connect to shorten the path from design to production code. Deep experience in performance-critical state management (NgRx, NGXS) and accessible enterprise UI, with a record of leading technical transformations across Australia, the UK and India. Australian Permanent Resident, Masters in Computer Application (Distinction).

SKILLS

Core	Angular (Expert), TypeScript, JavaScript, HTML, SCSS, CSS
Architecture	Nx Monorepos, Angular Signals, NgRx (Expert), NGXS, Micro-frontends
Testing	Jest, Jasmine, Karma, Unit and integration testing, 90%+ coverage
AI tooling	Model Context Protocol (MCP), Figma Code Connect, AI-assisted code review
Also	React, Next.js, Node.js, NestJS, D3.js, AG Grid, Bootstrap, Ionic, Git, CI/CD, Husky, commitlint

EXPERIENCE

Frontend Developer, Winning Group

09/2025 – Present

Sydney, Australia

- Architected and spearheaded a high-performance frontend for a major e-commerce platform within an Nx monorepo, reducing CI/CD build times by 35% and increasing code reuse across teams by 50%.
- Led the migration to Angular v20, using signals and the latest framework features to improve runtime memory efficiency by 20% and reduce First Contentful Paint by 400ms.
- Pioneered AI-augmented development using MCP servers and Figma Code Connect, accelerating the design-to-code workflow by 25% and reducing manual UI boilerplate by 40%.
- Engineered a custom UI library to replace legacy dependencies, cutting total bundle size by 60% and eliminating \$15k/year in technical debt maintenance.
- Designed and deployed a scratch-built order management system handling 10,000+ daily transactions with zero critical downtime since launch.
- Maintained a consistent 90%+ Jest coverage across the entire monorepo.

Senior Engineer, Direct Line Group

12/2023 – 06/2025

Leeds, United Kingdom

- Orchestrated the technical architecture for 5+ Angular repositories, implementing NgRx state management that reduced client-side API calls by 30%.

- Optimised CI/CD pipelines, reducing deployment windows from 45 minutes to 12 minutes with 100% zero-downtime releases.
- Mentored a team of 6 junior and mid-level developers, lifting sprint velocity 20% within the first 6 months.
- Automated development governance with Husky and commitlint, reducing code review cycles by 15% by catching lint and syntax errors pre-commit.

Senior Angular Developer, SRT Marine Systems PLC

02/2022 – 12/2023

Cardiff, United Kingdom

- Solved complex integration challenges for marine control systems, holding real-time data rendering at 60fps inside Unity iframes.
- Built a shared module library used across 3 product lines, cutting development time for new features by 40%.
- Reached 85% Jest test coverage, reducing production bugs by 25% year over year.

Senior Engineer, QBurst

05/2020 – 02/2022

Kakkanad, India

- Directed full-stack delivery of scalable solutions using Angular and NestJS, managing timelines for clients with budgets exceeding \$200k.
- Developed interactive analytics dashboards with D3.js, letting clients visualise datasets of 1M+ rows with sub-second latency.

Analyst, Ernst & Young (EY)

10/2016 – 05/2020

Kakkanad, India

- Built enterprise reporting dashboards for Fortune 500 clients, improving data accessibility for 5,000+ internal users.
- Led a cross-platform mobile application using Ionic for executive-level data presentations.
- Earned three awards (Extra Miler, R&R, Exceptional Client Service) for delivering milestones 15% ahead of schedule.

EDUCATION

Masters in Computer Application, Distinction

2011 – 2014

The Oxford College of Engineering, Bangalore, India

AWARDS

2017	Extra Miler Award, Ernst & Young
2018	R&R Award, Ernst & Young
2018	Exceptional Client Service Award, Ernst & Young
