Summary

Senior Web Engineer & AI Orchestrator with over **9 years** of international experience architecting high-scale frontend solutions, specializing in the latest **Angular ecosystem (v20)** and **Nx Monorepos**. A pioneer in **AI-augmented development**, utilizing **Model Context Protocol (MCP)** and **Figma Code Connect** to bridge the gap between design and production-ready code while significantly boosting developer velocity. Expert in performance-critical state management (**NgRx/NGXS**) and accessible enterprise UI, with a proven track record of leading technical transformations across **Australia, the UK, and India**. **Australian Permanent Resident** with a **Masters in Computer Application (Distinction)**, dedicated to delivering scalable, high-performance web applications that enhance user experience and drive measurable business outcomes.

Education

The Oxford College of Engineering

Masters in computer application • Distinction
Bangalore, India • 2011 - 2014

Experience

Winning Group

Frontend Developer

Sydney, Australia

09/2025 - Present

- **Architected and spearheaded** a high-performance frontend for a major e-commerce platform within an **Nx Monorepo**, reducing CI/CD build times by **35%** and increasing code reuse across teams by **50%**.
- **Led the industry-first migration to Angular v20**, leveraging signals and latest framework features to improve runtime memory efficiency by **20%** and reduce First Contentful Paint (FCP) by **400ms**.
- **Pioneered AI-augmented development** using **MCP servers** and **Figma Code Connect**, which accelerated the design-to-code workflow by **25%** and reduced manual UI boilerplate by **40%**.
- **Engineered a custom UI library** to replace legacy dependencies, resulting in a **60% reduction in total bundle size** and eliminating **\$15k/year** in potential technical debt maintenance.
- **Designed and deployed** a scratch-built Order Management system that handled **10,000+ daily transactions** with zero critical downtime since launch.
- **Enforced 100% feature reliability** through **Jest** unit testing, maintaining a consistent **90%+ code coverage** across the entire monorepo.

Direct Line Group

Senior Engineer

Leeds, UK

12/2023 - 06/2025

- **Orchestrated the technical architecture** for 5+ Angular repositories, implementing **NgRx** state management that reduced client-side API calls by **30%**.
- **Optimized CI/CD pipelines**, reducing deployment window times from 45 minutes to **12 minutes** while ensuring 100% zero-downtime releases.
- **Elevated team engineering standards** by mentoring a team of **6 junior/mid-level developers**, leading to a **20% increase** in sprint velocity within the first 6 months.
- **Automated development governance** using Husky and commitlint, which reduced code review cycles by **15%** by catching syntax and linting errors pre-commit.

SRT Marines PLC

Senior Angular Developer

Cardiff, UK

02/2022 - 12/2023,

- **Solved complex integration challenges** for marine control systems, maintaining high-performance rendering for real-time data at **60fps** within Unity iframes.
- **Systematized code reusability** by building a shared module library used across **3 different product lines**, cutting development time for new features by **40%**.
- **Guaranteed application stability** by achieving **85% test coverage** with Jest, reducing production bugs by **25%** year-over-year.

QBurst

Senior Engineer

Kakkanad, India

05/2020 - 02/2022,

- **Directed full-stack delivery** of scalable solutions using Angular and NestJS, managing project timelines for clients with budgets exceeding **\$200k**.
- **Developed interactive analytic dashboards** using **D3.js**, enabling clients to process and visualize datasets of **1M+ rows** with sub-second latency.

Ernst & Young (EY)
Analyst

Kakkanad, India
10/2016 - 05/2020

- Built enterprise reporting dashboards for Fortune 500 clients, improving data accessibility for 5,000+ internal users.
- Spearheaded a cross-platform mobile application using Ionic for executive-level data presentations.
- Earned 3 prestigious awards (Extra Miler, R&R, and Exceptional Client Service) for delivering project milestones 15% ahead of schedule.
